Summary

I am a 4th-year student at Michigan State University with a 3.3 GPA. I am pursuing a major in Data Science and I am looking for an internship focusing on data science and analytics to gain experience using data in professional environments. I can start working in the third week of May 2022, I am open to virtual and in person settings. I am a quick learner and willing to learn new languages and tools. Some recent projects include a Netflix Homepage algorithm, and analysis on Formula 1 Championships, these are available upon request.
